BISBEE, ARIZONA, SUNDAY APRIL 12, 1903.

NUMBER 257

PRESIDENT NOW LION HUNTING--AMERICAN CUP DEFENDER IS LAUNCHED

CEREMONY AT BRISTOL, RHODE ISLAND WILL BAG SOME BIG GAME IN
YELLOWSTONE PARK

Comparison Made Between Cup De-
fender and Constitution--Three
thousand Cheer The Reliance

Bristol, R. I., April 11.—With an
American eagle at her bow, the cup
defender Reliance was launched at
Hershey's works just before sundown
today.

Five hundred persons stood beside
the glistening underbody of the yacht
when at 5:31 o'clock, Miss Cora Iselin,
daughter of C. Oliver Iselin, man-
aging owner of the boat, broke, with a
silver hammer, the traditional bottle
of champagne, saying at the time:

"I christen thee, Reliance, and may
God bless thee."
Laurel wreaths and bunches of
pink, tied with red and black ribbon,
the racing colors of Iselin, were festooned
forward, and as the yacht slowly
drew out of the shop, the American
ensign was raised at the stern with
Iselin's private signal amidships and
the colors of the New York Yacht
club at her bow.

Three thousand persons in steam
yachts, in row boats, on two piers
and back on the street behind the
shop greeted the plunge of the Reliance
with lusty cheers, while the
bugler on the torpedo boat played
"The Star Spangled Banner."

Among the yachts anchored off the
works was the Constitution, unac-
companied candidate for cup honors two
years ago, and this year designed to
be one of the keenest rivals of the
Reliance.

The Constitution was gallantly
decked with flags and as the Reliance
for a few moments alongside her
off shore, some comparison of the
times of the two boats could be made.
It was seen that the bow of the Reliance
tapers out of the water more
sharply, that her stern is lower
and flatter and that she has a trifle less
freeboard.

The new boat, however, was soon
hailed into dock, where she will be
rigged.

COMMISSIONERS RECEPTION
Colon, April 11.—Preparations are
being made for the reception of the
special Panama canal commission of
the United States at the old de Les-
seps residence here. The commission
is expected to arrive next week.

MICHIGAN MEN ON THE GROUND

HEAVILY INTERESTED IN MIN-
ING PROPERTY HERE

Officials of the Calumet and Bisbee
and Calumet and Cochise Will
Spend Few Days in the City

A party of mining men, interested
in this district, from Calumet, Michi-
gan, registered at the Copper Queen
hotel last evening. These men are
particularly interested in the Calumet
and Bisbee and Calumet and Cochise
companies, which were organized with
Michigan capital a few months ago,
and since which, time development
work has been vigorously prosecuted
with very favorable results.

In the party at the hotel last evening
were A. M. MacManus, of Duluth,
a prominent lawyer of that city; J. A.
Kohlhaas, a meat buyer of Calumet;
Fred Smith, superintendent of the
Calumet district and employing six
hundred men; F. S. Carlson, a hard-
ware merchant and P. B. Lyon, cap-
talist, all of Calumet.

The party left Michigan on Monday
last and arrived in Bisbee at 4:42 p.
m. yesterday.

When seen at the Copper Queen hotel
yesterday, Mr. Smith and the mem-
bers of his party were busy greeting
old Michigan friends who are now lo-
cated in Bisbee. When pressed for an
interview, Mr. Smith said:

"No particular significance attaches
to our visit to Bisbee at this time. We
are interested in the development
work that is being done on our prop-
erties here and took this opportunity
to see for ourselves the conditions as
they actually exist. We will probably
remain three or four days and may
visit at other mining districts in the
territory before returning home."

THE STRUGGLE FOR MARKETS WILL BRING ON WAR

By POULTNEY BIGELOW,
Traveler and Author

TODAY we are approaching a struggle for more mar-
kets. I don't say that we need them, but the move-
ment is fast growing, and as a result THERE IS
BOUND TO BE A PHYSICAL CLASH. As
in reform movements old men avoid the fight, we ex-
pect that every thirty years young men who don't
know what war is are full of enthusiasm and want to fight. My ob-
jection to war is that the wrong men get killed. The men who start
the war remain home, and the young men are sent to the front, to
come back filled with disease.

When the struggle is over, the contractors and stockbrokers pull
the chestnuts out of the fire. It was the same way in Johannesburg
before the Boer war, and those who spread dissension took no part
in the conflict. The Spanish war was too easy for us, and you may
assume that the war feeling which prevails throughout the country
as a result is dangerous. The same thing is true in Germany, but
there was no such feeling there after the Franco-Prussian war.

WE MUST FACE THE WAR THAT IS NOT INEVITABLE, BUT
PROBABLE. WE MUST REMEMBER THAT THERE ARE MEN IN
EUROPE WHO ARE TRAINED TO THINK OF NOTHING BUT WAR
AND ARE ONLY AWAITING THE CHANCE.

Germany is very strong, and Germans think so. We may say
that the whole strength of Germany is now being expended on a navy.
Germans do not take naturally to the sea, but it has been forced on
them by the German emperor, who COULD MAKE DRAWINGS
BOTH OF THE INSIDE AND OUTSIDE OF ALL OUR
WAR VESSELS. Through his spies he knows all about our unpre-
paredness in the Spanish war. Germany has a powerful army, and
they think that a strong navy is destiny. Germany means to be as
great a naval power as she is a land power.

MAPS OF A FIRE SYSTEM

Surveyor Clark yesterday evening
turned over to City Clerk Kinney maps
of the proposed fire protection sys-
tem. These maps are to be distrib-
uted to different parts of the city in
order that all may have a chance to
study them.

One of the maps will be posted in
the postoffice, where nearly everyone,
who will have a vote at the bond elec-
tion on April 15th, will have a chance
to see it. Others will be at Justice
McDonald's office, the fire house and
Justice Brown's court.

The principal buildings and residen-
ces in the city are marked on the
map, which will assist in locating the
pipe lines. There will be two sizes
of pipe, the principal parts of the city
being laid with six-inch mains, and the
outskirts with four-inch.

Tanks with a capacity of 200,000
gallons of water will be located on the
hill back of the Methodist church
near the apex of the hill. On the
map the tanks are a short distance
above the Miller residence. These
tanks are high enough to force the wa-

ter under the strong pressure to all
parts of the proposed fire protected
districts.

From the tanks a six-inch main will
be laid to the Methodist church and
from there to the Catholic church.
From the church the pipe runs to the
firehouse, which will be the center of
the system. Six-inch mains are to be
laid to the flood gate in Tombstone
canyon and to the Dubacher building.

A four-inch main will be laid up
Tombstone canyon to the residence
of J. G. Pritchard. At regular inter-
vals laterals will be laid at right an-
gles with the main pipe. In Brewery
gulch the pipe extends to the old laundry
with laterals. It also extends to the
powder house below the slag dump.

Between the laundry, J. G. Pritch-
ard's place and the powder house ev-
ery building will be given fire protec-
tion. The laterals will be laid long
enough and close enough to insure
getting water to all the buildings on
the sidewalks. In all about 17,000 feet
of pipe will be laid.

END OF REVOLUTION
Panama, April 11.—An official able
message received here from Nicara-
gua says President Zelaya's forces
have captured Fort San Carlos at
Lake Nicaragua at the entrance of the
San Juan river. It is the true the
revolution is practically ended.

VENEZUELAN REBELS WIN
Willemstad Curacao April 11.—News
has been received here that the Ven-
ezuelan revolutionists have defeated
the forces of the government in the
neighborhood of Caracas and have
captured two cannon and a large
amount of ammunition.

FAILED TO CAPTURE FORT
5,000 Moorish Insurgents Repulsed at
Fortress of Frajales

Madrid, April 11.—A dispatch from
Melilla, Morocco, gives details of the
fighting at Frajales. It says that 5,000
insurgents made a desperate attack
on the fortress of Frajales on April 8.
After the customary prayers the
tribesmen advanced with a wild rush,
to the accompaniment of religious ex-
hortations. Twice they attempted to
carry the fortress by assault, but were
repulsed by well directed fusillades,
which killed numbers of the insur-
gents. During the attack the powder
supply of the tribesmen exploded.

FAIL TO REPORT
Springfield, Ill., April 11.—Attorney
General Hamblin today certified to
States Attorney Dines of Cook county
the names of 3,000 corporations, which
have failed to comply with the pro-
visions in the Illinois anti-trust act,
requiring an annual affidavit to the ef-
fect that corporations have not en-
tered into a pool trust or combine.

AN OPEN LETTER
Mr. Editor:—In view of the recent
misunderstanding and misrepresenta-
tion that have developed in connec-
tion with the discipline of the Bisbee
public schools, the board of trustees
wishes to state that it is for the best
interests of the school that the chil-
dren should be held to strict account
for their conduct at all times, and that
a careful investigation of facts shows
that Prof. Smallwood and his corps of
teachers have exercised their authority
and discharged their duties to the per-
fect satisfaction of the board.

The progress of the schools during
Professor Smallwood's administration
has been very decided and it is with
sincere regret that we learn of his
intention to return to the University
of California next year. This he has
decided to do, although offered a sub-
stantial increase in salary to remain
in the Bisbee schools.

The board urges parents to co-
operate with the teachers and officers of
the school in order to promote its best
interests and maintain discipline.
H. M. Woods,
Lee F. Hammer,
S. W. Clawson.

POSTOFFICE DEPARTMENT CORRUPTION--BRUTAL DEED OF LOUISIANA NEGRO

MRS. ALINE MATTHEWS MUR-
DERED AT SHREVEPORT
CHARGES FILED THAT SAVOR OF
STAR ROUTE METHODS

Negro Suspected of Crime Shot Dead
by Officers--Hacked Victim to
Pieces in the Residence District

Shreveport, La., April 11.—Mrs.
Aline Matthews, aged 45, wife of Frank
Matthews, a well known civil engi-
neer, was brutally murdered in her
bed early this morning by a negro.

The woman's little daughter, Aline,
aged 18, was fatally wounded. An
axe was the instrument of death em-
ployed in both cases.

Ed Porter, a negro, strongly sus-
pected of the crime, was shot to death
by two police sergeants while attempt-
ing to escape. He had been run down
at a point about five miles from
Shreveport.

The discovery of the crime was
made at 5:30 this morning by a ser-
vant who entered the bedroom of
Mrs. Matthews.

The unfortunate woman, who was
almost hacked to pieces, had been
dead some time. Her daughter was
still alive when the servant entered.

Entrance was effected through the
side window, and although there were
fifteen persons in the house, which is
situated in the heart of the residence
district of Shreveport, no one heard
the struggle.

UNFORTUNATE CONDITION.

Yesterday one hundred and twenty
thirty men were counted at the Calumet
& Arizona hotel, who were looking for
work and could not get it. It is not-
ing but justice to the working man of
Arizona, that this fact be published
so that he may not trudge hundreds of
miles to get employment only to be
disappointed. Bisbee can not furnish
labor to all the miners in the territory
if she is the best camp on earth.

NOT GUILTY OF SIMPLE ASSAULT

PROFESSOR SMALLWOOD ACQUIT-
TED BY JURY YESTERDAY

Was Charged With Simple Assault
Upon Person of Gus Bauer, Who
Was Given Whipping in School

It took the jury about twenty min-
utes yesterday afternoon to decide
that Professor Smallwood was not
guilty of assaulting Gus Bauer, a
schoolboy, aged about 12 years. The
case was tried before Justice McDon-
ald.

The assault charged in the com-
plaint was alleged to have taken place
in the Central school last Wednesday
morning. Professor Smallwood was
called upon by Miss Coffee, one of
the teachers, to chastise the boy, and
it was claimed that he handled him
roughly.

The testimony yesterday did not
sustain the stories that have been told
about the treatment of the boy. It
developed that he had been whipped
with a small piece of hollow hose, and
in a manner that would not inflict any-
thing more than temporary injuries.

J. M. O'Connell represented A.
Bauer, father of the boy, in the pro-
secution, and made a diligent effort
to bring out all the evidence bearing
on the case. Smallwood's interests
were looked after by W. P. Miller, who
was equally as active in the defense
of his client.

The principal testimony was that
of Dr. Caven, who was called in to
dress the boy's injuries after the
whipping took place. He said that no
permanent injuries had been inflicted,
and that the bruises could not have
been made by severe blows, or they
would have broken bones.

Each introduced testimony of a
large number of witnesses, the case
opening for trial at 10 a. m., and not
closing until about 4 o'clock. The
prosecution relied largely upon the
testimony of Gus Bauer, who said that
he had been brutally treated by the
defendant.

Several school children were placed
on the stand, and testified to the man-
ner in which the boy was whipped.
Their evidence was not such as to
have any great weight with the jury.
Their age precluded much weight be-
ing attached to the testimony.

The jury was made up of E. G. Ord,
foreman; Ed Fletcher, Charles Stacey,
A. W. Strum, C. J. Watson, J. P.
Fitzgerald, Charles Gring, J. S.
Wall, J. Jones, J. F. Wilmuth, E. G.
Riley and Frank Bopp.

Advance Information Regarding Pro-
posed Rural Delivery Routes Furn-
ished to Wagon Manufacturers.

Washington, April 11.—There were
two important developments today in
the investigation of affairs of the post-
office department.

The first was the filing of charges
that advance information has been
furnished to wagon manufacturers re-
garding the rural routes, and the other
was the issuance of an order to Post-
master Vancott, of New York, direct-
ing him to hold up all of the promo-
tion and extra clerk allowances cases
recently announced for the city of
New York.

The complainants in the charges of
advance information to wagon manu-
facturers, say the conditions cited
"favor of the star route methods of
twenty-five years ago."

RED CROSS OUTCASTS

Washington, April 11.—A meeting to-
day of the suspended members of the
Red Cross society, held at the resi-
dence of General John M. Wilson, it
was decided to issue a statement to
the public, explaining their position in
connection with matters, which led to
the suspension in the organization.

REFUSES MANILA POS

Rome, April 11.—Right Rev. Geo.
Montgomery, coadjutor bishop for San
Francisco, who recently was appointed
to the archbishopric of Manila, has
declined that post. He prefers to stay
at San Francisco, where he expects
to become archbishop.

SOLDIERS RASH ACT

Little Rock, April 11.—After shoot-
ing and seriously wounding Miss Cel-
ba Young, a handsome young woman,
William Alexander, son of a prominent
physician, killed himself this after-
noon. Alexander had just returned
from the Philippines, where he served
in the army.

WYOMING EASER GIFT

Cheyenne, Wyo., April 11.—Easter
eve finds Cheyenne and vicinity by
four inches of snow, which has been
falling since noon. The cattle and
sheep men are well pleased.

BOY IS STRUCK BY FLYING SPOKE

ACCIDENT TO HOSE CART DUR-
ING PRACTICE RUN YESTERDAY

Little Ernest Moore Was Cut on Fore-
head Two Stitches Being Taken in
Wound—Cart Has Been Repaired

Ernest Moore, a boy about 8 years
of age, came near being seriously in-
jured yesterday afternoon by an ac-
cident to the hose cart, while the team
was at practice near the roundhouse.

The team was just making the turn
in front of the O. K. stables when the
fell went to pieces, one of the iron
spokes flying a distance of fifty feet
and striking the boy on the forehead.

The blow was of sufficient force to
knock the boy to the ground. It was
thought at first that he had been killed
but a series of loud screams from him
reassured the large crowd present.

Constable Casad, who was nearby,
rushed to the boy's side and picked
him from the ground. Dr. Edmundson
was hastily summoned and the boy
with blood flowing from the severe cut
on his forehead was taken to the office
of Drs. Edmundson and Caven, where
two stitches were taken in the cut.

Dr. Edmundson stated last night
that the boy will suffer no serious re-
sults from his injury though had the
blow fallen on another part of his
head it might have been fatal. He was
taken home and put to bed last night.

Had the accident to the cart hap-
pened this afternoon at Tombstone, it
would have certainly lost the event
for the Bisbee team. The reel on one
side of the cart went to pieces, the
spokes flying in all directions.

The broken pieces were picked up
and the cart was last night repaired
and is now in better shape than ever.
It was thought at first that the damage
could not be repaired for several days.

The hose team made the run last
night in fairly good time, and expects
to go to Tombstone today, and make
a good showing. They figure that the
Tombstone team will put up the hard-
est contest, they having had the ad-
vantage of long practice on the race
course at Tombstone.
